

WINEMAKER COMMENTS

Honeysuckle, apricots, peaches and fresh grapes, all the best smells of summer, fight for your attention as you take the first smell of our Late Harvest Sauvignon Blanc--ironic for a wine made under such cold conditions. The taste is equally bright and fresh, with pear and pineapple taking over where the peaches left off. The wine is luscious in the mouth with a long lingering finish reminding you of warm summer days gone by, and the promise of more yet to come.
